

The Malaysian Public Sector ICT Strategic Plan

The Government of Malaysia has launched the Public Sector Information and Communications Technology (ICT) Strategic Plan to ensure that the various ICT initiatives undertaken by the Government agencies will be in line with the Public Sector ICT vision; to provide efficient and quality service to its customers - the citizens and businesses.

In achieving this vision, the ICT Strategic Plan will be the blueprint that defines the vision, strategic direction and framework for the usage of ICT in the Public Sector; the objectives and strategic thrust areas of ICT development for the Public Sector; as well as the implementation strategies and action plans to be taken to realise the objectives of the plan.
