KOTA KINABALU: The country's one-stop business registration and licensing portal - MalaysiaBiz Portal - has been expanded to Sabah, allowing the local business community to obtain information online quickly.

Currently, 67 agencies under the state government have updated their business licensing and registration information in the portal since May.

Minister in the Prime Minister's Department Datuk Joseph Entulu Belaun said such an achievement should be a source of pride as the information-gathering process was completed ahead of schedule in December.

"I believe this success would not be made possible without strong collaboration and synergy from the Sabah government and the relevant state authorities under it.

"In exploring challenges and responding to diverse customer demands, the offering of digital public services needs to surpass expectations," he said.

Belaun said this in his speech delivered by Malaysia Administrative Modernisation and Management Planning Unit (Mampu) director-general Datuk Dr Mazlan Yusoff at the launch of the MalaysiaBiz Portal, here.

At the event, 129 License Information Partners (Rakan Informasi Lesen) from each local authority in Sabah were appointed to ensure their information provided in the portal is up-to-date and valid.

Belaun said the MalaysiaBiz Portal would also expand its scope to provide online registration and licensing applications in the near future to speed up the process of doing business and encourage local economic growth.

MalaysiaBiz Portal was developed in 2015 and launched by Prime Minister Datuk Seri Najib Razak last year.

The portal only focused on agencies in the peninsula at the early stage of implementation. It provides licensing information that covers 1,174 business activities in various economic sectors.
