

JIPS receiving 'many' public complaints of police inaction

KUALA LUMPUR: Bukit Aman Integrity and Standard Compliance Department (JIPS) has received many complaints from the public on the police not discharging their responsibilities as law enforcers, says Comm Datuk Zamri Yahya.

The JIPS director said among cases allegedly not acted on included drug-trafficking and gambling syndicates, despite reports lodged.

He said there were also complaints of police chiefs not acting over reports lodged by the public over crime that allegedly happened in their respective areas.

"There are claims of district police chiefs who conspired with drug-trafficking and gambling syndicates, and getting rewards.

"But when we checked, no reports (on drug trafficking and illegal gambling) were lodged," he said.

Comm Zamri said misconduct among police continued to be raised by the public, despite several disciplinary actions taken since 1986.

Bukit Aman Narcotics Crime Investigation Department director Comm Datuk Razarudin Husain said they would not compromise with personnel who associate themselves with drug syndicates. — Bernama
